this quick start guide.

## Technical Specifications

### MODEL: M3 – Portable Bluetooth Speaker

Frequency Response	40Hz-20KHz(±6dB)	Speaker Size	Woofer.1x6.5" Tweeter.2x2"
SPL	105dB/1m/1W	Sensitivity	86dB
SNR	≥81dB	THD+N	≥1% (50W/1kHz)
Impedance	Woofer: 4 ohms(±15%)	Directionality	120°Hx90°V
Preset EQ	Tripling EQ (General or Bass Boost)	Rated power	80 W
Bluetooth Version	5.3	Bluetooth Range	10m (No obstructions)
Charge port	Type- C	Audio Connecting	BT 5.3 Type-C 6.3 MIC INPUT AUX IN USB 1.0
Charge time	3hours	Audio Play Time	10 Hours*
Battery type	Li-ion polymer 4000mAh	Standby time	300Days
Dc power input (Optional)	DC input12V@5A	Charge Voltage & Current	DC5V@2A
Product size(HWD)	335*250*280mm	Net Weight	5kg
Package size(HWD)	415*350*325mm	Gross Weight	6.5kg

\* Play time estimated using 70% rated power.

## Important safety precautions

Before use, please carefully read this user manual and familiarize yourself with the product's operating methods to ensure long-term and trouble-free operation of the equipment.

\*The product will be improved and upgraded, which may result in differences between the description in the manual and actual operation. Please make your own adjustments.

### Important information

Please read and understand all instructions before using this product. Damage caused by failure to comply with the instructions is not covered by the warranty.

### Safety warning!

This product cannot be waterproof in the operating environment. Please keep this product dry: If water spills into the interior of the product, please immediately turn off the power switch and contact the Customer service center. Follow the instructions of the customer service center to dispose of the product before use to avoid electric shock. Do not place this product and accessories near open flames or other heat sources, including direct sunlight, to avoid fires. If transporting this product at a low dry temperature of 5 °C, please unpack the product and wait for its temperature to reach room temperature before connecting it to a power outlet. Please install this product in a closed space. Be sure to leave at least 4 inches of space around the product for ventilation.

### Electricity safety

Lightning and lightning weather, please unplug the power cord. Before connecting this product to a power outlet, please ensure that the power voltage matches the voltage value printed on the back or bottom of the product. If the voltage is different, do not connect the product to a power outlet to avoid short-circuits.

### Maintenance and upkeep

Please use a microfiber cleaning cloth to clean this product. Please find qualified service personnel for all maintenance services.

### Environmental protection

This product is manufactured using recyclable high-performance materials and components. Please dispose of this product together with other household waste that is applicable to the laws of your country/state/region. Please understand the local regulations regarding the classification and collection of electronic, electrical products, and batteries. Properly disposing of these products helps to avoid potential negative impacts on the environment and human health.

Special Declaration of Intellectual Property Rights: The hardware design and software program of this product are protected by copyright. If the content of this product and manual is copied without authorization from our company, we will bear corresponding legal responsibilities.

If customers use self- equipped audio cables, it is necessary to ensure the shielding performance of the cables. This manual is for reference only, and the actual functions of the products ordered and received by the customer shall prevail.

The pictures/graphics depicted are only for reference, please refer to the actual product. Our company reserves the right to make improvements and changes to the appearance and design of our products without prior notice.

This symbol indicates that there is a dangerous voltage in this equipment that may cause electric shock

This symbol indicates that there are important operation and maintenance instructions in the manual attached to this equipment.

Dangerous voltage that may cause electric shock when used in non-tropical areas

Use below 2000 meters above sea level

Don't throw in the trash can

**Warning:** The voltage in this device is fatal. There are no user-serviceable parts in the device. All maintenance should be performed by qualified maintenance personnel. If the working voltage set by the manufacturer is changed, the safety certificate is no longer applicable.

## Package List

Auto OFF: - No connection for 10min.  
Auto Disconnect: - Occurs after BT connection has received no audio for 30 min.

## How to place speaker

**TWS/BT:** When connected in TWS mode, the secondary unit flashes, Bluetooth mode is always on and flashes when Bluetooth pairing is successful.

**POWER:** Always on when the power is turned on, flashing when voltage is low, and the power amplifier function is turned off.

**CHARGE:** Charging is always on, flashing when battery fail or temperature is too high

## Charging Indicator

## OTG Digital recording

**Internal recording:** The phone only records the sound through the speaker device, and external noise and noise cannot be recorded to ensure the purity of the sound.

### Android/Live recording on mobile phone:

Android /Harmony OS, and tablets require downloading third-party APP software to record videos using the recording function provided by the software.

### IOS mobile recording live streaming:

After connecting to the OTG internal recording cable on Apple phones and tablets, turn on the built-in recording function to record videos (third-party software can also be used).

**Live recording:** After connecting the OTG recording cable, open the app's live streaming function to transmit the speaker signal to the phone.

\*To reduce background noise during live recording, do not use AC power to power speakers, mobile phones, and other devices. Battery powered devices have lower background noise, and OTG live recording cables should not fall to the ground. When not in use, unplug the audio cable to avoid idle interference.
